Faculty of Pharmacy, Mahidol University

Quality Education

The Faculty is committed to providing quality pharmacy education has always been the core value and mission of our faculty since the beginning. The following is a list of our degree programs:

Degree Programs (BPharm) Program (Thailand) Program
1. Bachelor of Pharmacy

Degree Programs (PharmD) Program (Thailand) Program
1. Master of Science in Pharmacy Program in Pharmacology
2. Master of Science in Pharmacy Program in Pharmaceutical Sciences
3. Master of Science in Pharmacy Program in Pharmaceutical Chemistry
4. Master of Science in Pharmacy Program in Pharmaceutical Physics

Area of Research Excellence

The Faculty of Pharmacy at Mahidol University is focused on the study of drug and health systems interrelationships, especially the application of pharmacokinetics, pharmacology, pharmacoepidemiology, pharmacology, pharmaceutical anthropology, social, and behavioral science research. The Faculty is the largest institution offering a broad range of academic programs related to drug use, health policy, and health management and human resource development. The Faculty has a fully equipped hospital at its main campus level in hospitals to central health management at the ministry of health and health insurance systems. Experiences sharing among international students are also possible in the educational research activities. The faculty has a unique master degree, and coursework with thesis or only for Ph.D. Applicants are provided with excellent opportunities to broaden their knowledge.

International Collaboration

The Faculty of Pharmacy's strong network of international collaboration in research and education through various projects. Our graduate students have been involved in various projects and collaborative research. The Faculty offers many international exchange programs, research collaborations and dual graduate degrees. We have provided with excellent opportunities to broaden their knowledge.

First-class Facilities

Faculty of Pharmacy, Mahidol University is one of the most prestigious pharmacy schools in Thailand and Southeast Asia. Our graduate study programs have grown considerably and have provided many opportunities to develop professional skills needed in the practice of the pharmacy profession.

Equipped with a generous collection of drug databases, DIC has been serving the public and medical community alike since 1983, to ensure the dissemination and access to accurate and unbiased information related to drugs and drug use.

**Medical Plant Information Center (MPIC)**
The MPIC has been gathering information on medicinal plants from various sources since 1979. Today, it has evolved into a state-of-the-art medicinal plant research for the Southeast Asian region. The Center has provided services in drug quality assessment well as has provided services in drug quality assessment to both the government and private sectors. Efforts are made to introduce new quality assurance systems, such as ISO/IEC 17025: 2005, into the operation so as to upgrade the services to satisfy its clients.

**Faculty Pilot Plant for Drug Production**

Faculty is the only faculty of pharmacy in the nation that is equipped with a Good Manufacturing Practice (GMP) verified pilot pharmaceutical plant. The plant has played an important role in teaching and research in the area of pharmaceutics for more than 20 years.

**Wisdom of the Land**

Siriruckhachati Nature Park - An Award Winning Project for Plant Conservation

With state-of-the-art learning facilities, graduate students at the Faculty enjoy numerous supporting facilities as follows:

**Supporting Facilities/Units**

With a focus on creating learning facilities, graduate students of the Faculty enjoy numerous supporting facilities as follows:

- **Career Prospects of Pharmacy Graduates from Mahidol University**

Our graduates have made significant contributions at every level of care. They have played an important role in our society in both the public and private sectors. Graduates from our Master and Doctoral programs continue to grow further in a variety of career paths both in the public and private sectors, job opportunities that are available range from work in pharmaceutical industries, research institutions, community pharmacies, to healthcare-related organizations. In addition, a number of our graduates have become faculty members of pharmacy schools around the nation and throughout Southeast Asia. This clearly reflects the leading role of our Faculty in the development and advancement of pharmacy education in Thailand and Southeast Asia.

**Financial Support & Student Services**

A number of our faculty members are awarded scholarships or funding from many sources. One of the most prestigious scholarships is the Royal Golden Jubilee Ph.D. (R.G.J.Ph.D) Program from the Thailand Research Fund. In addition, students are encouraged to apply for national and graduate school fellowships, research grants and awards. Please contact the program director of your interest for information regarding availability and eligibility criteria for scholarships or financial assistance. More information can be obtained through:
